

SLIDE

SLIDE

THE COM- PANY

In 2002 Slide gets born from the desire to produce furniture and lights to create the perfect atmosphere that highlights emotions. Starting with the first note of amazement of the luminous furniture, at ones loved by the events world, Slide improves its knowledge and its research on industrial processes of rotational moulding and developed an entire collection of furniture, complements and technical lighting. Architects and interior designers have fallen in love with the new ideas, shapes, materials for outdoor set up and hospitality illumination. In this catalogue, we want to highlight the great designers have collaborated with us, but we want also to highlight our new essence, in which the industrial process matches the Italian craftwork. We have introduced new materials, finishing, comfortable cushions, waterproof fabrics and tactile textures to meet the needs of the widest requirements of living and contract.

The strength of our brand has always been the attention to the international markets, creating something that was not there and then became necessary: thanks to these features, Slide continues its production in Buccinasco, near Milan, but its name and products reach more than 130 countries around the world. We can understand better the needs and we can improve our performance thanks to the proximity of our principle markets.

Our new inspiration embedded the ancient Italian arts with our contemporary Made in Italy, which means creating the amazement to see something unique for the first time: we called it Contemporary Tradition. The visual effects add richness and materiality to the products and create our new vision: think about the future in the key of a contemporary, sustainable and affordable luxury.

CON- TEM- PORARY TRADI- TION

Slide presents a revolution that broadens the boundaries of design: new material consistency and new shapes represent our new essence, in which the interior design finishing merges with the outdoor needs. Thanks to refined textures and the continuous research in our production process, our inspiration comes from the materials that Nature gives us and that men's genius processes: a sheet of Japanese paper, a weave of leather, the tiles of a mosaic. We want to give you the inspiration for complete furnishing: best-sellers dialogue with the novelties, Baroque and colourful items match with natural shades of stones, wood and marbles. The amazing imperfections of the work by hand meet the contemporary of polyethylene and create a timeless and versatile family of products: every piece is unique and non replicable.

LEATHER

The ancient Tuscan art of the woven leather come to life with the material we know at the best: single material polyethylene. We reproduce the soft and tender hand-made weaves on the structure of the new products, directly created in the mould. The engineering of the new texture is enhanced by two new colours inspired by the natural nuances of leather: Saddle Leather and Mahogany Leather. These two colours are obtained thanks to a unique mix of plastic powders that give more material consistency to the whole structure.

MOSAIC

Italy took the best part of the other cultures that influenced its history. Sicily and Puglia did the same with the art of mosaic. For the first time, we match this meticulous technique with the lighting sector. This unique and non-replicable process comes from pearls of polyethylene in different shades of white, which make the raw material more visible. The pearly effect that comes out creates a beautiful product when it is off and a soft lighting atmosphere when it is on. The art of the thousand tiles put together is reproduced by a contemporary material, such as polyethylene pearls, which are linked to each other.

GLASS

The ancient tradition of master glassmakers came from Venetian picturesque islands: Murano and Burano. From that hand-made production process, we learn to use the flames to create a transparent lampshade. With a process half industrial and half artisan, we are now able to create the blown glass effect with the plastic material. The new polymer is transparent and brings bronze nuances during the first step of industrial process: the mould heating. At the end of the industrial process creation, as a real master, we flame by hand every single sphere.

MARBLE

Marble is a classic material that was crafted in Italy since the ancient Romans, who used marble for statues and architecture creations. Also nowadays, marble is the perfect classic and luxurious elements in home and contract projects furniture. Thanks to our continuous research on the rotational moulding, we are now able to reproduce the nuances of this noble material but with all the advantages of polyethylene: recyclable, resistant, easy to clean and care and so ideal for outdoor areas.

WOOD

Wood is a noble material and one of the most loved elements for furniture, because it makes every space warm and welcoming. Thanks to the natural beauty of wood, we wanted to draw inspiration from its shades of the finest quality, wengè, to complete tables and bar counters. A great classic of furniture turns into a contemporary key: a retro and warm touch, elegant with its dark colour, but with all the resistance of the HPL, perfect for outdoor living.

The product engineering and production phase is the result of continuous internal research and product feasibility studies. Only thanks to the deep knowledge of the product process of rotational moulding and the continuous study of our technical department, we have come to create increasingly complex and articulated moulds. Thanks to the continuous research of designs and engineering studies, the products get born with the textures imprinted directly in the mould.

Through an empirical process, we have created unique nuances, which allow craftsmanship to enter the industrial process. We modify the standard parameters of rotational moulding, to create something unusual and unique. This is possible thanks to our tests on the parameters of rotational moulding, possible only thanks to a deep knowledge of production methods. For us, Made in Italy means a continuous experimentation with new plastic powders and techniques of production. The search of new, eco-sustainable raw materials let us to make the product more beautiful, more functional and unique every day.

Attention to detail is what we want to do best, so every product is finished by hand after it has been extracted from the mould. This allows to make the furniture more polished, more uniform and unique at the same time. The hand finishing production processes allow us to get closer and closer to the craft process, where the touch of our collaborators make our products more refined and unique.

RECY- CLING

Slide has many ways to bring the Made in Italy quality, creativity and design culture to all over the world in a sustainable way. First of all providing a high quality product, that is durable and will last for many years. The company vision works with the aim of the countless potentialities of the material: low-density linear polyethylene processed according to a zero-emission process. All Slide products are 100% recyclable and some of the catalogue colours are recycled too, such as Jet Black, Elephant Grey, Chocolate Brown and Mahogany Leather. Slide uses the virtuous concept of the circular economy: every product can be used infinite times. Every company creation can turn again into plastic powder that will give life to a new product. Thanks to this virtuous circle of life, single material polyethylene is a precious commodity for the community. Our polyethylene is a single-material polymer that is composed of a single type of plastic. This purity of the material allows it to be completely recycled.

The low density linear polyethylene used for the production of our furniture and can thus be reused indefinitely. The recycled colours represent about 40% of the whole production. Choosing Made in Italy means making an ethical choice, where the ideas are thought and realized in the same place. Choosing Slide products means supporting amazing sustainable and affordable quality design available to everyone.

Granito Finish — Ottocento Collection

PAOLA NAVONE- NE

PAOLA NAVONE graduated in Architecture in 1973 and immediately after starts to collaborate with Alchimia group, considered the most advanced Italian design philosophy. In 1983, she won the first International Design Award in Osaka. During her long and faceted career she worked as architect, designer, art director, furniture designer, essayist, teacher, curator of exhibitions and events. She is interested in eastern and western cultures. In 2000 she was named Architect of the year by "Architektur & Wohnen" German magazine.

LOW LITA TABLE coffee table	W 90	D 74	H 30 cm

"This collection is dedicated to the pleasure of relax both outdoor and indoor, it looks informal, fun and nice. Low Lita collection tells stories of different worlds which "mix-up" with joy".

Paola Navone

Low Lita — Saffron Yellow

"Low Lita can remind of a seat with an African style of an exotic country. Unexpectedly, it becomes something different but also contemporary, thanks to its material and the technique used to realize it".

Paola Navone

Anniversary Edition Finish — Low Lita Collection

ANNIVERSARY EDITION

We celebrate the iconic Low Lita with a new nuance, born from the perfect match between Paola Navone's incredible creativity and the deep knowledge of Slide in the processing of plastic materials. Low Lita Anniversary collection is not a special edition, but it is unique: its black and white nuances are the result of the craftsmanship of rotational moulding; these nuances are not replicable so to personalize each product.

Mosaico Finish — Spin

FABIO NO- VEM- BRE

FABIO NOVEMBRE was born in Lecce in 1966. He moved to Milan where he graduated in Architecture at Politecnico. In 1994 he founded his own studio, working across different project scale, from interior architecture to master planning, from industrial to graphic design. He has been a Visiting Professor in many Universities, has participated as juror for several international awards and has gained international acclaim by being featured in numerous publications. Paola Antonelli, senior curator in MoMA's Department of Architecture and Design, said about him: "It feels refreshing to welcome an architect who dedicates his work to pleasure and beauty".

SPIN

SPIN

hanging/wall lamp

"Sometimes a spin is needed to make a pure shape vibrate. Spin hanging/wall lamp comes from the twist of a square-based parallelepiped element. The modularity allows obtaining long and sinuous elements that can vary, in terms of composition, based on the aggregation method".

Fabio Novembre

Mara Collection Texture — Mahogany Leather

LO- RENZA BOZZ- ZOLI

LORENZA BOZZOLI was born in Milan. She attended the Academy of Brera, and moved in New York, starting her experience inside the fashion field with the first self-produced lines. Returned to Milan, she worked with Elio Fiorucci and companies as Basile, Camper, Sergio Rossi, Plein Sud. Her interest moves then toward the world of design, articulating her own job through a vast series of collaborations with Italian and international design brands, famous in all over the world. She lives and works in Milan.

ALES- SAN- DRO MEN- DINI

ALESSANDRO MENDINI was an Italian architect, born in Milan. He has been editor-in-chief of the magazines Casabella, Mondo and Domus. Alessandro Mendini made design objects, furniture, interiors, paintings, installations and architecture. In 1979 and 1981 he received the Compasso D'Oro Award for design. His projects are found in museum and private collections around the world. Alessandro Mendini's theoretic and written work, along his design work, finds its origin at the crossroads between art, design and architecture.

CHUBBY LOW footrest	W 85	D 75	H 30 cm
CHUBBY SIDE TABLE coffee table	W 110	D 110	H 35 cm

“Chubby was projected as a plastic reinterpretation of the Crochet Chair, an armchair composed of crocheted fiber which has been hardened with epoxy and designed in a limited edition. The open structure and lightness of the chair provided a nice contrast. When I decided to propose it in polyethylene I designed a footrest and a coffee table in order to create a small collection of products”.

Marcel Wanders

Gloria — Black Polypropylene

MARC SAD- LER

MARC SADLER is a French citizen born in Austria. He has lived and worked in France, North America, Asia and Italy. One of the first graduates in "esthétiques industrielle" at the ENSAD in Paris with a thesis on plastics, he was a pioneer in experimentation on the different materials and contamination between technologies, which have become distinctive aspects of his work. Today, thanks to his eclecticism, he is a consultant for a wide range of industry companies. Awarded four times the Compasso d'Oro, his work has won many international design awards over the years.

Amélie Sit Up — Powder Blue

ITALO PERTI- CHINI

ITALO PERTICHINI was born in Switzerland and he moved to Italy to complete his artistic, technical and aesthetic education: this double soul influences entirely his design activities. Indeed, its philosophy is to create objects that have simple shapes and have a strong functionality. Pertichini says: "What is beautiful does not always work and what works is not beautiful. Beautiful and useful may seem reductive... but has always been the essence of Design". In 2001 he opened his own design studio in Milan: he deals with industrial design and interior design.

AMÉLIE COLLECTION

GIÒ TONDO

pot

The typical flowerpot becomes oversize and with a multifaceted surface: these are the main features of Giò Tondo, Big Giò and Giò Monster. The macro reinterpretation of pots of everyday use creates huge pots that immediately draw attention to them.

W 110 / D 100 / H 92 cm

Tao — Coffee Table

GU- GLIEL- MO BER- CHICCI

GUGLIELMO BERCHICCI was born in Milan. At the beginning of his career, he took part to the most renowned events and exhibitions of avant-garde Design, both in Italy and abroad. He is particular interested in the transformation of recyclable materials for luminous objects. Thanks to his research Berchicci becomes the first Art Director of Slide and he helps us to become who we are. In every area he works, Berchicci has got a double soul: at one side, he loves strong formal expressiveness, on other side he focuses a more conceptual research linked to the synthesis between form and function.

ED
TAO
ZOE

ED + ZOE

table+chair

Ed table is the perfect mix between different shape and material: its conical base is in polyethylene and its round top in in tempered glass. Its soul mate is Zoe, a sinuous and elegant chair. Both of them can give a magic touch in their luminous version.

GEAR LOW TABLE

coffee table

Anastasia Ivanyuk

Inspired by the typical shape of a mechanical gear, Gear is a coffee table but also a pot or container if turned upside down. It is a modular design item: many Gears can be put on top of or beside each other, interlocking like a real gear, to create playful and colourful compositions, turning any space into a unique setting.

W 55 / D 55 / H 43 cm

HEXA

Taeke Halma

bookcase

"In the design I tried to create an object that looks playful and light, but it is actually extremely resistant. The hexagonal shape of the individual cells allows the user to personalize each cell, and this will automatically create a rather artistic picture of the various objects as they are not aligned in a strict horizontal fashion".

Taeke Halma

W 198 / D 37 / H 112 cm

W 198 / D 37 / H 200 cm (2 pcs. overlapping)

WOW

Kazuko Okamoto

bench

The calligraphic and palindromic WOW creates amazement and happiness in every kind of settings. This pop seat pays a tribute to the comics culture in Japan, where Kazuko Okamoto was born.

W 147 / D 43 / H 43 cm

IRON

Sebastian Bergne

bench

"To create the Iron modular bench I bent a symbol of strength using my creative mind. Iron bench balances a discretely minimal form with a strong sculptural presence whether used singularly or combined in multiple pieces".

W 45 / D 45 / H 75 cm

LIGHT DRINK

Jorge Najera

bottle rack

Light Drink is a design item with a double personality: it is a bottle rack but also a high stool, it depends on how it is used. Its glass shape is ideal to furnish terraces, gardens, living spaces in private houses, contracts and events settings, in an unusual and funny way.

W 45 / D 45 / H 75 cm

KALIMERA

Slide Studio

bottle rack

W 44 / D 44 / H 40 cm

Ico is the reinterpretation of the large, classic and very bright kitchen lamp, which is recalled in its shape. Its playful and irreverent style matches perfectly with polyethylene: this young, fun and minimal hanging lamp was born from this cooperation.

MESH

BBMDS

hanging lamp

"The generative process of Mesh begins from a single unit, unique and made in polyethylene: it could be replicated, to spread out the space. Every single unit consists of three crossed elements, which make the product modular, to create variable schemes for every kind of indoor spaces".
BBMDS

W 162 / D 76 / H 11 cm

SIRIO

Slide Studio

hanging lamp

Sirio lights up rooms and creates magical atmospheres, thanks to its dim light and its shape, which reminds a six-pointed star. Its extravagant design and its simple lines make Sirio a great protagonist of the rooms it occupies and an ideal hanging lamp to complete Christmas atmosphere or to warm up cold winter evenings.

W 80 / D 80 / H 80 cm

MOLLY

Slide Studio

hanging lamp

W 52 / D 52 / H 41 cm

MURANO

Slide Studio

hanging lamp

From the ancient tradition of master glassmakers, Murano is a hanging lamp that, best of all, matches industrial series production with the wonderful imperfections of craftsmanship. With a special blend of plastic material, Murano has the iridescence of glass and each piece is unique, thanks to manual finishing. Warm light radiates uniformly thanks to the transparency of the material.

Ø 30 cm / Ø 40 cm / Ø 50 cm

Blown Glass Finish — Murano

GLOBO COLLEC- TION

Slide Studio

table/floor/hanging lamp

The simplicity of a luminous sphere that can create amazing and elegant atmospheres in indoor and outdoor settings. The essential design of Globo turns this family of lamps into protagonists of minimalist and contemporary contract projects.

Ø 25 cm / Ø 30 cm / Ø 40 cm / Ø 50 cm

Ø 60 cm / Ø 70 cm / Ø 80 cm / Ø 120 cm / Ø 200 cm

Globo lamps are suitable for any setting to create customized and unique luminous effect. Indeed, Globo collection is a numerous family: it is available in different dimensions from 25cm up to 2mt diameter, and in different version as table, floor, wall/ceiling, hanging and floating lamps.

MATERIALS CHARAC- TERISTICS

Entirely **MADE IN ITALY**,
100% recyclable, realised
by the means of a zero
emission production cycle in
compliance with the
environmental sustainability
principles.

Polyethylene Material

Linear low-density
polyethylene – LLDPE

Production process:
rotational moulding.

Resistant to extreme
temperatures:

-60°C to +80°C

(luminous version:
if equipped with fluorescent
bulb

-20°C to +60°C
with LED system

0°C to +50°C)

UV resistant (except lighting
colours)

High tensile strength 100%
recyclable

Polyurethane Material

Polyurethane – PU

Production process:
injection moulding.

High durability

Very good thermal resistance
100% recyclable

HPL Material

High Pressure Laminate

UV resistant

High impact resistance

Heat-resistant

MAINTENANCE AND CLEANING

Keep the products away from
excessive heat sources.

To prevent dust and dirt
from sticking to the plastic
surfaces, periodically clean
the products.

Avoid using ethanol
or any liquids containing
acetone, trichloroethylene
or ammonia (solvents in
general).

Polyethylene: clean the
product with a damp cloth
and neutral liquid soap
diluted in water.

It is recommended the use of
SLIDE “Clean-Up” cleaner or
a degreaser.

In case of persistent stains,
use a scrub eraser (melamine
foam - Scotch-Brite Easy
Eraser or similar) or a hot-
water-pressure washer. Spray
the cleaning product on the
surface and rub with a damp
cloth. Rinse abundantly with
water, preferably with hot
water high-pressure washer.

Polyurethane: clean the
products with a soft cloth
and neutral liquid soap
diluted in water, especially
if the surface comes into
contact with highly coloured
substances (such as coffee,
tea, oil, etc.). Only use neutral
detergents in water solution.

For lacquered version:
periodically clean with
a polish cleaner, gently
rubbing with soft cloth/
cotton wool.

For metal parts: use specific
detergents, avoiding the use
of abrasive cleaners.

For further information
consult the technical sheets
available on the website
www.slidedesign.it

CLEAN-UP

Cleaner detergent with
high-cleaning power
recommended to clean
SLIDE products (standard
and luminous versions).

BRIGHT-UP

Polishing protective
detergent for SLIDE products
maintenance. It can remove
the most superficial scratches.

WARRANTY

SLIDE products are
guaranteed against all
manufacturing faults,
granted that the items are
appropriately used, for
twenty-four (24) months
from the date of purchase
upon presentation of the
invoice. LEDs are guaranteed
for twelve (12) months
from the date of purchase
upon presentation of the
invoice. Warranty doesn't
include parts that are
subject to wear and tear
due to usage, batteries
when provided, wiring and
electrical parts that do not
have manufacturing faults.
SLIDE declines any liability to
damages caused to things
or persons by an illegitimate
use of the product.

CANDY LIGHT BLUETOOTH RGB LED MODULE

Candy Light
RGB LED module
recommended for
professional use.

—
Brightness: 300 lm
Rechargeable battery.
IP44 - indoor & outdoor use.
Compatibility: suitable with
all SLIDE products with I3 or
E3 base.

—
Bluetooth 4.0 technology.
Smartphone or tablet
controlled only by SLIDE app.
Network: up to 250 wireless
connected lamps.

—
Colours: unlimited colours,
emotional light effects,
adjustable luminous intensity,
multi-element programming.
Accessories: standard EU
plug power supply (included)
and bluetooth remote control
(not included).
Battery runtime: up to 25
hours.
Charging time: rechargeable
in 6 hours.
Life expectancy: 500
charging cycles.
